

Central Texas College

Core Curriculum Student Learning Outcomes

1. Communication Skills

Students develop, interpret, and express ideas and information through written, oral and visual communication that is adapted to purpose, structure, audience, and medium.

2. Critical Thinking Skills

Students gather, analyze, synthesize, evaluate, and apply information for the purposes of innovation, inquiry, and creative thinking.

3. Empirical and Quantitative Skills

Students apply mathematical, logical, and scientific principles and methods through the manipulation and analysis of numerical data or observable facts resulting in informed conclusions.

4. Personal Responsibility

Students identify and apply ethical principles and practices to decision-making by connecting choices, actions and consequences

5. Social Responsibility

Students analyze differences and commonalities among peoples, ideas, aesthetic traditions, and cultural practices to include intercultural competence, knowledge of civic responsibility, and the ability to engage effectively in regional, national, and global communities.

6. Teamwork

Students consider different points of view to work collaboratively and effectively in pursuit of a shared purpose or goal.
